This Digital goa GRID site is unavoidably visible to high levels of traffic from one of the main arterial roads leading from Brisbane to the south and Logan City. It is close to Brisbane's largest car sales precinct, the Moorooka Magic Mile. The site sits well above any visual distractions, grabbing attention as they travel the overpass. It has unobstructed, head-on, long viewing for 100s of metres.

**Restrictions:** No advertising of electrical training advertisements. Pre-approval required for political content.
